Raman Rayes  
President  
Rayes Boiler  
8252 Christiana Ave.  
Skokie, IL 60076

Dear Raman:

I am writing this letter as a thanks to Rayes Boiler for continuing to up the bar on energy efficiency standards and responsiveness to landlords needs in commercial and residential heating applications. Most recently, Rayes boiler came out to one of our investment properties on short notice and provided unparalleled service and response time to what could have been a very troubling situation.

Rayes Boiler has also assisted a large number of our clients in our commercial brokerage service over the years where we recommend working with Rayes boiler. They do so with their superior boiler products which help lower overall energy usage and results in a win-win for our clients on both the brokerage side and energy efficiency Platform Interra ES which helps clients explore alternative supply options on Gas and Electric rates. We have found this partnership helps owners lower overall operating costs which in turn helps increase the overall Return on Investment in their property with Rayes Boiler and Interra Es in the long run.

Regards:

Jon P. Morgan
