To Whom It May Concern:

This is to state that my wife and I recently had the pleasure of working with Raman Rayes of Rayes Boiler during the installation of a new, High Efficiency Rayes Boiler at a 49-unit building we own at 1364-1372 W. Estes, Chgo.

From the initial Proposal to the final installation, Mr. Rayes was totally involved, informed, and a pleasure to work with. He was instrumental in helping us obtain a rebate from the gas company and always was available to answer our numerous questions and address our concerns.

I highly recommend Mr. Rayes and Rayes Boiler Company to anybody in need of an upgrade, or any boiler service for that matter.

Sincerely,

Charles B. Spaulding, Owner
